CAREER OBJECTIVE

A motivated Information Technology student seeking a Software Developer role to build efficient and scalable applications. Passionate about problem solving, learning new technologies, and contributing effectively in a team environment.

EDUCATION

Ramco Institute of Technology <i>B.Tech – Information Technology (CGPA: 8.15)</i>	2022 – Present <i>Rajapalayam</i>
Shree Swami Vivekananda Matric Hr. Sec. School <i>Higher Secondary (80.67%)</i>	2022 <i>Perundurai , Erode</i>
Shree Swami Vivekananda Matric Hr. Sec. School <i>SSLC (94.2%)</i>	2020 <i>Perundurai , Erode</i>

INTERNSHIP EXPERIENCE

Cybersecurity Intern – Supraja Technologies (vijayawada) <i>Web Application Security</i>	Jul 2025 – Oct 2025
– Worked on identifying web vulnerabilities and understanding secure development practices. – Developed a python based Dictionary attack tool named as Quick Crack as a part of the Internship. – Presented the Application and got Letter Of Recommendation from the CEO of Supraja Technologies.	
Oracle APEX Intern – Vibathi Labs (Chennai) <i>Learning Oracle Apex</i>	Mar 2025
– Secured Top 3 in a 8 week Department level PL/SQL Hackathon and got Internship the opportunity. – Completed an Industry level course on Introduction to Oracle Apex during the Internship.	
AI/ML Intern – Jupiter Brothers (Sivakasi) <i>Machine Learning Project</i>	Mar 2024 – Jul 2024
– Built a predictive model for HVAC power consumption using real-time datasets. – Worked on data preprocessing, analysis, and improving prediction accuracy.	

PROJECTS

Activity-Based Mobile Application Lock System (ActivLock)

- Developed a mobile application that unlocks apps after completing physical activities like pushups or squats.
- Implemented customizable user-defined tasks and secure unlocking mechanisms.
- Released the App through Github for public testing.

HVAC Power Consumption Prediction

- Designed a system to predict energy consumption using historical data analysis.
- Improved efficiency by identifying usage patterns and optimization opportunities.

Quick Crack – Password Tool

- Created a tool demonstrating password validation and security concepts like dictionary attacks.
- Focused on understanding authentication mechanisms and vulnerabilities.

AI Chatbots

- Developed chatbots for text summarization and text-to-speech functionalities.
- Improved automation and user interaction efficiency.

Personal Portfolio

- Developed my personal Portfolio , showcasing my Achievements and Skills.
- Deployed my portfolio by using Github for public visibility and accessing.

TECHNICAL SKILLS

Programming: Java, Python

Database: SQL , MongoDB

Web Development: HTML, CSS , Reactjs

Core Concepts: Data Structures, OOP, Problem Solving

Soft Skills: Communication, Teamwork, Leadership

CERTIFICATIONS

- Wipro Certification in Java Full Stack Development
- NPTEL Elite Certification in Programming in Java
- NPTEL Certification in Cloud Computing
- NPTEL Certification in Problem Solving through Programming in C

ACHIEVEMENTS

- Awarded as Best Student Performer with Certificate of Excellence twice in an Inter-College Hackathon Conducted by Supraja Technologies and got Internship opportunity.
- Finalist in Pecan+ CTF 2024 at IIT Madras organized by IITM Pals in association with EDITH COWAN University (Australia).
- Received a Trophy for securing Top 5 in Thiran CTF Quest'25 Finals conducted by Shri Eshwar College of Engineering.
- Secured 3rd place in an Intra-college coding competition and was awarded with Rs.1000 cash prize.
- Top performer in National-level CTF competitions organized by reputed Institutions such as IIIT Kottayam , IIT Madras , Sri Sakthi College of Engineering , Shri Eshwar College of Engineering.

LEADERSHIP EXPERIENCE

- Acted as Joint Secretary of a Inaugural Technical Association of our department named as RIT INFOTRIX in 2023 and was promoted to Student President of of the Association in 2024.
- Organized and Successfully completed over 20+ technical and non-technical events through the association.
- Successfully conducted a 2 days CyberSecurity Bootcamp acting as the Technical Speaker.
